Certified Municipal Clerk (CMC) Program

The CMC program is designed to enhance the job performance of the Clerk in small and large municipalities. To earn the CMC designation, a Municipal Clerk must attend extensive education programs. The CMC designation also requires pertinent experience in a municipality. The CMC program prepares the applicants to meet the challenges of the complex role of the Municipal Clerk by providing them with quality education in partnership with institutions of higher learning, as well as State / Provincial / National Associations. The CMC program has been assisting clerks to excel since 1970.

Master Municipal Clerk (MMC) Program

The MMC program is an advanced continuing education program that prepares participants to perform complex municipal duties. The program has an extensive and rigorous educational component and a professional and social contribution component. The MMC applicant must demonstrate that they have actively pursued education and professional activities.

You can find more information about the CMC and MMC and all the training opportunities available to you at the IIMC website, www.iimc.com.

Education PLUS Program (EPP)

PROFESSIONAL * LEADERSHIP * UNITED * IN * SERVICE

The Education PLUS Program is designed as an **ADDITION** to the current education programs (CMC and MMC) and is **NOT** a designation. Members **MUST** possess an MMC in good standing to apply. The EPP program requires members to commit to lifelong education. The certification requirements include an extensive and advanced educational component and a professional contribution component. EPP applicants must demonstrate their active pursuit of educational and professional activities and remain informed of current socio-political, cultural, and economic issues that affect local governments and municipalities.
